The view of Arequipa at night is beautiful with the lights of the city in the distance and the lights of the stars overhead, while the light of the camp stove provides a warm cup of tea and a cooked meal.

Day 2: An early breakfast includes the option of maté de coca (a herbal tea made from cocoa leaves which helps with the effects of altitude). After breakfast we start the 5 to 6-hour climb to the summit. The top is a natural observatory - in the distance you can see the Chachani and Picchu Picchu volcanoes, the national Reserve of Aguada Blanca, Lake Salinas, the city of Arequipa, small pueblos and of course, the unique and beautiful crater of Misti itself. All the energy you expend climbing Misti is returned to you on the descent.
